UNIVERSITY OF CALICUT
BOARD OF STUDIES IN JOURNALISM (PG)
FACULTY OF JOURNALISM

PROGRAMME REGULATIONS
MASTER OF ARTS IN JOURNALISM & MASS COMMUNICATION

(MA-JMC) CBCSS
2019 ADMISSION
FOR AFFILIATED Colleges

Title of the Programme affiliated

Master of Arts in Journalism and Mass Communication (MA JMC)

Duration of the Programme

Four semesters with each semester consisting of a minimum of 90 working days distributed over a minimum of 18 weeks, each of 5 working days

Eligibility for Admission

Candidates who have passed a Bachelor Degree course of the University of Calicut or any other university recognised by the University of Calicut as equivalent thereto and have secured a minimum of 50% marks in aggregate are eligible to apply. However, professional graduates will be considered for admission, provided they secure minimum of first class (60%) in overall subjects. Backward communities and SC/ST candidates will get relaxation in marks as per the university rules.

Admission Procedure

Admission to the program shall be made in the order of merit of performance of eligible candidates at the entrance examination. The entrance examination will assess the language ability, general knowledge and journalistic aptitude of the candidate.

Weightage Marks

Holders of PG diploma in journalism	5 marks
Graduates with journalism sub	5 marks
Three year degree holders with Journalism as Main	7 marks
Bachelor's Degree holders in Multimedia Communication / Visual Communication/ Film Production/Video Production	5 marks

Candidates will be given weight age in only one of the categories whichever is higher.

Weightage will be given only on production of authentic certificates.

Teaching, Learning Strategy

Apart from the classroom interactions/lectures, seminars, workshops, media analysis, film appreciation etc. shall be conducted. Industry visits and study tours shall be arranged during the programme to get the students exposure to the nature and function of various media organisations. The Departmental body shall prepare a panel of external experts/ faculty and facilitate interaction between students and the panellists. Teachers shall organise interactive sessions between the students and the panellists in their respective fields and monitor students' attendance and performance during these interactive sessions.

Medium of Instruction and Examination

Medium of instruction and examination shall be English considering the global media industry to which the professionals are nurtured and trained through the programme.

Evaluation Strategy

The evaluation scheme of all courses shall contain two parts :

a)   Internal evaluation

b)   External evaluation

20% weight shall be given to the internal evaluation. The remaining 80% weight shall be for the end semester external evaluation.The external examination in theory courses is to be conducted with question papers set by external examiners. The evaluation of the answer scripts shall be done based on a well-defined scheme of valuation framed by the examiners. The external examination in practical courses shall be conducted and evaluated by two examiners - one internal and one external. The valuation of dissertation shall be jointly done by the supervisor of the project in the department and an External Expert from the approved panel, based on a well-defined scheme of valuation framed by them. They can follow the scheme of valuation suggested in the CBCSS-PG Regulations 2019 or frame an alternative one.

Dissertation and Viva voce: (8 credits)

The fourth semester will include dissertation and viva voce to be valued/ conducted by an Examination Board appointed by the University with allotment of 60 weightage for dissertation and 40 marks for viva voce.

Internship

Students have to do internship in recognised advertisement agency/newspapers/ news agency/ PR department/ any other media organisation for not less than one month. The Department Council/ equivalent body should prepare a list of media organisations (Newspapers and Magazines, TV Channels, Radio Stations, Advertising Agencies, Technical Writing Firms, Public Relations Departments, Web Portals etc.) and students should choose one of the organisations in the list to do internship. The list should be revised from time to time. If any student fails to fulfil this requirement, his/ her result will be withheld until the internship requirement is met.

Infrastructure

Media education involves hands on training, particularly in this era of media convergence. Hence, adequate infrastructure in the form of computer systems, internet connections, software, cameras and accessories, edit suits and studios are to be ensured for the use of learners.

CBCSS PG Regulations 2019

In all other matters like credit hours, examination, evaluation, grading etc., CBCSS PG Regulations 2019 of the University of Calicut as amended from time to time shall be applicable.

PROGRAMME STRUCTURE

MA JOURNALISM AND MASS COMMUNICATION (CCSS)

Total Credits Required : 80

SEMESTER I
Minimum Credits Required: 20

Course Code	Title	Credits
Core Courses		
MCJ 1C 01	Introduction to Mass Communication	4
MCJ 1C 02	Reporting News	4
MCJ 1C 03	Editing News	4
MCJ 1C 04	Media History	3
MCJ 1C 05	Communication Laws and Ethics	3
Core Course- Practical		
MCJ 1L 01	Graphic Design and Print Media Production (Practical Paper)	2
Total Credits		**20**
Ability Enhancement Course (AEC)		
MCJ 1A 01	Indian Politics *(Credits are not counted)*	4

SEMESTER II
Minimum Credits Required: 20

Course Code	Title	Credits
Core Courses		
MCJ 2C 01	Media, Culture and Society	4
MCJ 2C 02	Advertising and Marketing Communication	4
MCJ 2C 03	Radio and Television Production	4
MCJ 2C 04	Development Communication	3
MCJ 2C 05	Global Communication	3
Core Course- Practical		
MCJ 2L 01	Photography and Videography (Practical Paper)	2
Total Credits		**20**
Professional Competency Course (PCC)		
MCJ 2A 1	Audio Visual Editing *(Credits are not counted)*	4

SEMESTER III
Minimum Credits Required: 20

Course Code	Title	Credits
Core Courses		
MCJ 3C 01	Communication Research	4
MCJ 3C 02	Public Relations and Corporate Communication	4
MCJ 3C 03	Online Journalism	4
MCJ 3C 04	Media Management and Entrepreneurship	4

Elective Courses *(One elective course is to be chosen- Total 4 credits)*
MCJ 3E 01   Documentary Film Production   4
MCJ 3E 02   Technical Writing & Documentation   4

Total Credits   **20**

SEMESTER IV
Minimum Credits Required: 20

Core Course Project/Viva
MCJ 4P 01   Dissertation and Viva   8

Core Course
MCJ 4C 01   Film Studies   4

Elective Courses *(Two elective courses are to be chosen- Total 8 credits)*
MCJ 4E 01   Data Journalism   4
MCJ 4E 02   Photojournalism   4
MCJ 4E 03   Political Economy of Indian Media   4

Total Credits   **20**

Note : Colleges can determine the elective course/s offered subject to the availability of teachers, facilities, workload sanctioned and the provisions in the CBCSS PG Regulations 2019.

DETAILED SYLLABUS

MA JOURNALISM AND MASS COMMUNICATION (CCSS)
SEMESTER I
MINIMUM CREDITS REQUIRED: 20

MCJ 1C 01
INTRODUCTION TO MASS COMMUNICATION
(Core Course : 4 Credits)

Learning Objectives
- To familiarise students with the basic concepts of communication, specifically mass communication as a human/social/cultural process.
- To introduce communication models as a method for studying communication in a disciplinary framework.
- To present mass media system as a cultural institution and an industry, with special reference to the Indian context.
- To acquaint students with key theories, theoreticians and schools of thought in communication, their historical evolution and influence on various social domains.

Learning Outcomes

At the completion of the course, the students shall be able to:
- Recognise the social relevance of mass communication.
- Analyse the dynamics of mass communication in a systematic way using appropriate models and theoretical frameworks.
- Critically evaluate the functioning of communication systems both as a cultural process and an industrial practice.

Module I
Key Concepts and Models of Communication

Defining communication and its elements and process, Types and levels of communication-interpersonal, group and mass communication, Origin and development of Communication as a discipline, Communication models: Aristotle, Lasswell, Shannon and Weaver, Dance, Berlo, Barnlund, Gerbner.

Module II
Mass Communication: Systems and Functions

Defining Mass Communication
Mass Communication Models-Westly McLean, Shramm, Riley and Riley and Matetzke.
Nature and characteristics of mass media – newspaper, magazine, radio, television, film and digital media.Functions of mass media, Media as a cultural institution, Media as an industry. Normative Theories of the Press.

Module III

Mass Media and Mass Society

Theories of Mass Society – IbnKhaldun, Comte, Spencer, Tonnies, Durkheim, Habermas.

Mass as Audience and related theories: Stimulus Response Theory, Magic Bullet Theory, Individual Differences Theory, Social Differentiation Theory, Social Relationship Theory, Flow theories of Communication: One step, Two Step and Multi Step Flow, Gatekeeping, Rogers' Theory of Diffusion of Innovation.

Module IV

Mass Media and Meaning Making

Construction of meaning: Linguistic, Sociological and Social Psychological approach. Mediated Reality: Persuasion, Propaganda, Balance Theory, Congruity Theory, Dissonance Theory, Social Learning Theory and Modeling Process, Agenda Setting Theory, Framing, Priming, Stereotyping, Formation of public opinion.

Module V

Effects Mass Media

Types of media effects, History of media effect studies, Theories of Effects: Uses and Gratification Theory, Dependency Theory, Spiral of Silence Theory, Cultivation Analysis.

MCJ 1C 03
EDITING NEWS
(Core Course: 4 Credits)

Learning Objectives
- To introduce students to the basics of news editing and design as well as the professional use of media language.
- To give practical training in editing news stories for print, broadcast and digital media on paper and computers.
- To familiarise students with the roles and rules of editorial staff.
- To explain the principles and techniques of editorial writing and preparing edit pages.
- To acquaint the students with managing textual and non-textual elements on different media formats.

Learning Outcomes

At the completion of the course, the learners shall be able to:
- Understand the role of editors and the functioning of the editorial section and the basic ethical issues confronting editors.
- Critically analyze copies to ensure accuracy and objectivity.
- Use correct grammar and eliminate items in poor taste in the copy.
- Write clear and accurate headlines, decks and captions.
- Design basic news pages.

Module I
Basics of Editing

> Definitions, Need, Purpose and Principles of Editing, Organizational Pattern of Editorial section in newspaper, radio and television, Duties and Responsibilities of editor and editorial staff. Editing in the age of convergence.

Module II
English for Journalists

> Parts of Speech, sentence structures, Tense in news writing; Negative and double negative expressions; Adjectives, modifiers; Split infinitives, Subject and verb agreement; commonly used words for reporting news, Attributions and identification of sources; punctuations, paraphrasing and transition devises in news writing, Current trends in journalistic writing.
>
> *(English for Journalists by Winford Hicks, published by Routledge is suggested as core reference source for this Module. Grammar exercises shall be given as assignments)*

Module III
Editing Process

> Proofreading, Style books, Checking facts and figures, Localising and contextualising news. Subbing, Copy fitting, Rewriting, Summarising, and Abstracting.
> Preparing Edit Page
> Editorial: meaning, significance, types, structure and writing techniques. Editorial policy formation.
> Edit Page: contents, significance.
> Headlines: types, functions and techniques.
> Editing for Magazine.
> *(Text editing assignments shall be given in each segment after theory classes)*

Module IV

News Design

Design principles in general, Newspaper design: types, principles, elements, colour management, front-page design and layout trends, Magazine design, Magazine cover. Typography, Trends in printing technology.

(Page design assignments shall be given after theory classes)

Module V

Managing Non-Textual Content

Managing visual elements in print media-, cartoons, comics, puzzles, and illustrations. Infographics and an overview of data visualization techniques.

Photojournalism, Photo editing- principles and techniques, Captioning.

Techniques for integrating newspaper with digital media through QR code, links etc.

MCJ 1C 04
MEDIA HISTORY
(Core Course : 3 Credits)

Learning Objectives
- To understand the origin and development of various media in India and in the West.
- To familiarise students with the different media organisations and its ownership.
- To understand the recent trends in media.

Learning Outcome

At the completion of the course, the learners shall be able to
- Understand the transition of press in the world.
- Trace the growth of media in India and its engagement with politics and social change at the different points in history
- Recognise the outcomes of different commissions, Acts and amendments regarding media.
- Critically evaluate the functioning of Indian film industry and film certifications.

Module I
Origin and Development of the Press

The rise of mass media, a brief history of the Press in the UK and the USA, Beginning of journalism in India, The Press in the colonial period- Major newspapers and editors in India with special focus on the Malayalam Press, The Press and the Freedom Struggle- The Press in Free India: Major newspapers and editors with special focus on the Malayalam Press. The Press in the Emergency and after, Indian media in the globalized and corporatized times, Current trends in Indian Press, Online news portals in India.

Module II
Broadcasting in India

Brief history of broadcasting in India - AIR, Doordarshan, SITE, Chanda Committee, Varghese Committee. SITE, Open Sky Policy, FM Radio, Community Radio, Ham radio, Satellite radio Internet radio services, Private TV Channels, Cable Television, DTH and rating systems and agencies. Current trends in radio and television sectors.

Module III
Film and New Media in India

Origin and development of Indian cinema, History of Malayalam cinema, New trends in Malayalam film, digital media in India: Early years, Social media penetration in India. Impact of digital technology on Indian mass media: A historical analysis. Film Certification in India.

Module IV
Communication Institutions and Organisations

Growth of mass communication in India: Institutions (IIMC, PCI, DAVP, MIB, Prasarbharati, RNI etc.). Wage boards and welfare measures for mass media, Media ownership patterns, management, organisations and economics and Press Commission Reports, News Agencies India– PTI, UNI, Reuters, AFP, AP etc. Professional media organizations: IFWJ, INS, Editors' Guild of India, ABC etc. Women collectives in the media sector.

MCJ 1C 05
COMMUNICATION LAWS & ETHICS
(Core Course: 3 Credits)

Learning Objectives
- To provide an overview of the Indian legal system, Indian Constitution and to discuss in detail the freedom of speech and its limitations enshrined in it.
- To introduce the laws related to print, broadcasting and digital media, and intellectual property rights
- To discuss the ethical concerns in media operation with support of case studies.

Learning Outcomes

At the completion of the course, the learners should be able to:
- Have a thorough understanding of the constitutional provisions of media and communication.
- Understand the rules and regulations in relation to media and communication profession.
- Have discourses on media and communication ethics.

Module I

Indian Legal System

Defining Media Laws, Defining Media Ethics. Legal system in India- Hierarchical Patterns, An overview of Indian Constitution, Indian Constitution and Freedom of Expression - Ideals, Cases and Criticisms. Indian Penal Code and communication related provisions, Laws and cases of Defamation: Civil and criminal defamation, libel and slander, fair comment, right to privacy, indecency, obscenity and pornography, Laws related to the rights of women and children, Privileges of Judiciary and Legislative: Contempt of Court 1952 and its amendments. Privileges of Parliament and legal aspects of parliamentary reporting.

Module II

Information, Communication and Rights

Right to Information: Official Secrets Act 1923, Freedom of Information Bill, Right To Information Act, 2005. Case studies related to Right to Information, Intellectual Property: Copyright Act, Creative Commons and Free-Software Movement

Module III

Media Laws

PRB Act, 1867, Delivery of Books and Newspapers (Public Libraries) Act, 1954, Press Council Act and its amendments, Newspaper Price and Page Act, Working Journalists Act, 1955, Working Journalists (Fixation of rates and wages) Act, 1958. Related case studies. Cable network TV Act 1995. Broadcast media laws – AIR and DD codes for advertising, Cinematograph Act, Certification Rules.New Media Laws: IT Act and its amendments. Data policies.

Module IV

Ethical Issues in Mass Communication

Discourses on media ethics in contemporary society- sting operation, undercover reporting, fake news, data compromise etc along with related case studies.

Professional codes of conduct–Press, Electronic Media, Digital Media, Advertising and Public Relations, Media and code of conduct of general elections.

MCJ 1L 01
GRAPHIC DESIGN AND PRINT MEDIA PRODUCTION
(Core Course- Practical: 2 Credits)

Learning Objectives

- To equip learners to do word processing in English and Malayalam essential for media production.
- To train them to design media content and manage media design projects.
- To impart skills in graphic design and image editing required for media production.

Learning Outcomes

At the completion of the course the learners shall be able to

- To type in English and Malayalam and to paginate the content of print media like newspapers and magazines.
- To do essential graphic design for all types of media
- To critically evaluate the aesthetics of content visualisation and colour management of various media.

Module I

Typewriting and Word Processing

     At the end of this module, the learner should be able to type in Malayalam and English at a moderate speed and be familiar with basic operations in word processing and formatting.

Module II

Ideation to Design Prototype and Project

     This module will give the learner training in applying design principles, choosing typography, identifying the relationship between colour, typography, layout, and tone, developing multiple design ideas, identifying image sources, difference in colour modes, managing colours and critiquing designs.

Module III

Image Editing

     At the end of the module, the learner should be able to do the following using raster/bitmap graphics:

- Importing and working with various file formats
- Working with layers
- Creating design comps
- Vector and bitmap graphics
- Retouching photos by using selection tools
- Sharpening photos
- Adjusting brightness and contrast
- Adjusting levels and colours
- Cropping, resizing, and straightening images
- Combining multiple images
- Transforming images
- Editing photographs
- Creating watermarks
- Using filters
- Painting
- Drawing and modifying lines

- Drawing and modifying shapes
- Using swatches
- Adding text to images
- Preparing images and graphics for web, print, and video

Module IV
Graphic Design

At the end of the module, the learner should be able to do the following using vector graphics in proprietary/open software:

- Vector artwork
- Raster to vector artwork
- Painting
- Drawing and modifying shapes
- Creating and modifying text
- Creating patterns
- Outputting for web, video, and print

Module IV
Layout and Pagination

At the end of the module, the learner should be able to do the following works related to newspaper/magazine layout and pagination using proprietary/open layout and pagination software:

- Page make-up
- Putting text on a path
- Creating multi-page spreads
- Transforming objects
- Importing text
- Designing in columns
- Using character and paragraph styles
- Designing of typographical matter
- Designing of pictorial matter
- Cover page design
- Adding captions
- Creating templates

Module V

Media Production

Outcome of this module is to produce the following using the skillset acquired during the delivery of the last four modules. The learner shall design the following and submit them as part of lab record for internal evaluation in soft/hard copies

- Newspaper (One front page)
- Magazine (Minimum 16 pages including front and back covers)
- Brochure/Poster/Advertisement (One each)

SUGGESTED READINGS

2. Bartholomew, J. & Rutherford,S. *The Design Student's Handbook, Your Essential Guide to Course, Context and Career, 1st Edition*. Routledge.

MCJ 1A 01
INDIAN POLITICS
(Ability Enhancement Course-AEC: 2 Credits-*Credits are not added*)

The main objective of this course is to equip students with micro level understanding of the political transitions/transformations in India in general and the state of Kerala in particular especially in the post independent period. Students are expected to discuss/analyses various perspectives on various developments in postcolonial India.

The readings given below will be helpful for their study. The books are selected in such a manner that the students will have a comprehensive understanding and familiarity with diverse views. Reading of these books is a window to understand the politics in postcolonial India, but they are not must read as part of this AEC. Department Council or equivalent bodies are free to prepare an alternative list of readings that serve the purpose.

Evaluation shall be done as per the provisions in the CCSS-PG Regulations 2019 in connection with AEC.

SUGGESTED READINGS

1. Verghese, B.G. (2010). First Draft: Witness to the Making of Modern India, New Delhi: Tranquebar Press
2. Chawla, Navin B., (2019). Every Vote Counts: The Story of India's Elections, New Delhi: Harper Collins
3. Sen, Amartya (2005), *The Argumentative Indian*: Writings on *Indian* History, Culture and Identity, Allen Lane
4. Tharoor, Shashi (1997) India: From Midnight to the Millennium and Beyond

6. *Jeffrey Robin (2001) Politics, Women and Well-Being*: How Kerala became 'a Model, Oxford University Press
7. Satheese Chandra Bose and Shiju Sam Varughese (2015) Kerala Modernity: Ideas, Spaces and Practices in Transition, Orient Blackswan.

MCJ 2C 01
MEDIA, CULTURE AND SOCIETY
(Core Course: 4 Credits)

Learning Objectives
- To problamatize the concept of culture with particular reference to communication.
- To understand how media systems are integrated into and shaped by larger systems of power, ideology and cultural understanding; how cultural processes and cultural commodities are produced, circulated and consumed.
- To introduce the vocabulary, methods and interpretative strategies generally used in cultural studies and related areas.
- To present the critical tools that explore how minorities are represented in the media and make them aware of the role of those representations in the reproduction of inequality and social injustice.

Learning Outcomes
At the completion of the course, students shall be able to
- Understand and apply key vocabulary, methods and interpretative strategies used in cultural studies and related areas.
- Have an informed and critical awareness of how media operates in a social system.
- Apply critical understandings of media cultures and institutions to reflect on their own use of media in professional, creative and personal practices.
- Develop a non-essentialist understanding of both their and other cultures, societies, regions and beyond.
- Critically analyse media representation of various segments of the society

Module I
Media/Culture

> What's culture? Culture, Popular culture, Mass culture, High culture/low culture, Counterculture, Culture and civilisation, Leavisism, Culturalism, Culture as body of knowledge, Culture as mass deception, Culture industry, Culture as capital, Culture as an Anthropological category, Multiculturalism, Clash of civilization, Inter-cultural communication.

Module II
Media/Language/Ideology

> Introduction to linguistics, Socio-linguistics, Structural linguistics, Ferdinand de Saussure, Structuralism, Culture and myth, Roland Barthes, Semiology, Post Structuralism, Jacques Derrida and Deconstruction, Jacques Lacan, Discourse and power (Michael Foucault and Edward W Said), Classical Marxism, The Frankfurt School, Althusserianism, Hegemony, Subaltern studies, Gender and mass culture, Feminist critique, Post-modernism and decline of metanarratives.

Module III
Media/Technology

> Politics and Philosophy of technology, Media as technology, Technology as tool and method, Technology as worldview, Medium theory, Mechanical reproduction,

technological determinism, Medium as message, Media ecology, Science and Technology Studies, new 'wave' of technological revolution, information society paradigm, electronic governance and digital democracy, web activism, Machine learning, Data journalism, Implications of technology for everyday life and politics.

Module IV

Media/Representation

Representational paradigm, Systems of representation, Language and representation, Codes and conventions in representation, Representation theories; reflective approach, intentional approach, constructionist approach. Stereotyping, Culture/nature distinction, Binary oppositions, Other/Othering, Discourse/discursive formation, Inter-textuality, Subject position, Subjectivisation, Representation and symbolic power.

Module V

Media/identity/Marginality

Identity and belonging, Identity and social construction: Gender, Sexuality, Race, Class, Ethnicity, Religion, Caste, Nation and Region. Identity crisis, Displays of identity, Identity politics, fixity of identity and difference, Multiple identities, Intersectionality, Discrimination, Prejudice and bias, Marginalisation and exclusion, Media visibility and access

Module VI

New Media and Cyber Culture

ICT, Web 2.0, Cyberspace, Virtuality, Virtual community, Virtual reality, Information society/network society, Informationalized capitalism, Global Village and digital natives, digital divide, Convergence, Hypertextuality, Multimediality, Interactivity and audience involvement, Self presentation online and cyber identity, The marginalised and digital media, Cyber feminism, Social networks and media, Digital democracy, Resistance and digital activism, New social movements and e-mobilisaation, Digital media and moral panic, Privacy and publicness in cyber space, Digital surveillance, Cybercrime, Games and gaming cultures and Simulation- Simulacra and Hyperreality

MCJ 2C 02
ADVERTISING AND MARKETING COMMUNICATION
(Core Course: 4 Credits)

Learning Objectives
- To understand the fundamental theoretical framework of advertising, and links the role of advertising to the broader marketing communications context.
- Enable students to participate in the development of creative solutions to address advertising and marketing communications challenges.
- Evaluate the effectiveness of integrated advertising and marketing communications initiatives.

Learning Outcomes

After the completion of the course, the learners shall be able to:
- Understand the scope of advertising from traditional print, electronic, and outdoor campaigns; to online and social media marketing promotions.
- Recognize the societal impact of advertising and the need for ethical practitioners.
- Perform a market segmentation analysis, identify the organization's target market/audience and define the consumer behaviour of each segment.

Module I
History & Evolution of Advertising

Definition – Origin and Evolution of Advertising. Functions, Role and Scope of Advertising in the Indian and Global Marketing Scenario – Economic liberalization and its impact on Indian Advertising- Advertising agency – structure and functions- ethics and socioeconomic aspects of advertising-

Module II
Advertising Theories & Campaign Planning

DAGMAR theory- David Ogilvy and Rosser Reaves theories; AIDA formula- Consumer learning Theory- Hierarchy of Effective Models – ELM Model of Attitude Change- Cognitive Process in Media Effects- Appeals in advertising- Advertising campaign – planning, programming & evaluation-Media Mix and media selection– media strategy

Module III
Creative Strategy & Types

Headline, slogan, body copy, illustrations, logo, trademark, themes and appeals. Fundamentals of layout- designing advertisement- designing process- Kinds of advertisements – product, service, institutional, industrial, public service and public awareness advertisements-Outdoor Advertising

Module IV
Marketing Communication Basics

Marketing Communication- Concept, Nature, Functions & Importance- Market Segmentation: Concept, Importance and basis, Target Market Selection; Market Positioning: Concept & Importance, Market Repositioning; Product Differentiation vs. Market Segmentation; Contemporary issues in Marketing- Marketing Communications in various stages of Product Life Cycle

Module V
Marketing Communication: Planning and Action

Marketing Mix- Digital Marketing -Strategy, Planning, Stages of planning- Opportunity, Strategy, Action-Direct marketing-Rural Marketing- Importance and challenges of rural

marketing- Effectiveness of Marketing Communications- Integrated Marketing Communication

MCJ 2C 03
RADIO AND TELEVISION PRODUCTION
(Core Course: 4 Credits)

Learning Objectives
- To familiarise students with the basic concepts in broadcast media and related technology.
- To recognise and engage with various genres of radio and television programmes.
- To familiarise students with the process, work flow and methods of radio and television production.
- To impart training in producing various radio and television programmes.

Learning Outcomes

At the completion of the course learners shall be able to
- Have through understanding of the key concepts, technology and methods of broadcast media
- Script radio and television news programmes
- Independently produce radio and television news programmes

Module I

Introduction to Broadcast media

> Broadcasting, Telecasting, Narrowcasting, Podcasting, webcasting, Terrestrial Transmission, broadcasting technology, programmes and policies, Code of Ethics and Broadcasting Standards, Newsroom Conference, sources of News, News agencies, Hoaxes, The Reporters, Personal Network, Other News Media, Planned Events, Staged Events, News and entertainment Channels, Morgue/Repository

Module ll

Television Broadcasting

> Types of Programmes, entertainment- Education Programme Formats, format of TV News packaging, News programmes and Streams, 24-Hour News, the Bulletin, non-news programmes, Documentary, Live programmes, Gossip Sitcoms, Soap Operas, Indore and Outdoor Reporting, Programme Structure and format in new era, ease to Camera

Module lll

The Process

> Voice of the station, Broadcast language, Broadcast News Style Book, piece to camera, Gatekeeping, Research, Reporting news, Reporting war, News Reading, Ad-libs, The gate, Beat reporting, Work to Sequence, rundown order, Television Scripting, shooting script, data and info graphics, TV news studio and Gallery, basic television production requirements, PCR, MCR, OBV.

Module IV

Radio Broadcasting

> Types of Radio Programmes, bulletin, teaser, promo, Debates, Radio drama, Radio Interview, Discussions, Music and Phone-ins entertainment- Education Programme Formats, format of Radio News packaging, Programme Structure and format in new era, Live programmes, Gossip Sitcoms, Soap Operas, Indore and Outdoor Reporting, ease to Camera, non-news programmes in Radio. Genres and Language, Preparation of Commentary, Speed, Emphasis, Research, Narratives Devices, Earth station, Uplinks and downlinks, Transmission, On air, Corpsing, Prompting, Using the prompter.

Module V

The Process

Principles of recording, Basics of Radio Scripting, schedule, treatment, Voice modulation, Speed, Clarity, Body Language and appearance, News Anchors and Presenters, rapport, Qualities of a Newscaster, Professionalism, types of Microphones, Basic recording requirements,

Module VI

Production & Editing for Radio and TV

Basics of video and audio editing, ease of Multimedia production software, Production of new Bulletin for Radio and TV, Production of Interview, Documentary for Radio and TV, Non News Programme production.

MCJ 2C 04
DEVELOPMENT COMMUNICATION
(Core Course: 3 Credits)

Learning Objectives
- To familiarise students with the basic concepts in development, development communication, social change and empowerment and related areas.
- To introduce various approaches in communication for development and social change.
- To present development communication policies and action plans in various sectors in India.

Learning Outcomes

At the completion of the course, learners shall be able to
- Recognise key concepts, approaches and action plans in the field of development communication in the global and national scenario.
- Identify the potential of various communication methods for social change.
- Critically evaluate the communication practices implanted by various agencies for development and social change.

Module I

Key concepts in Development

Development: concept and definitions, reasons for underdevelopment, problems, Issues and approaches in development, Characteristics of developing countries, Indicators of development

Models of development – Adam Smith, Ricardo, Maltheus, Rostow, Marx, Mahatma Gandhi, Dominant paradigm of development and its criticism

Module II

Development Communication

Development communication: Concept, definition – process – role of media in development communication – social, cultural and economic barriers. Development communication models of Lerner, Schramm, Rogers. Social Marketing Approach, Entertainment-education strategies.

Module III

Diverse Approaches

Alternative Paradigm: Participatory communication approach, participatory action research. An overview of folk and traditional media and their use in development. Empowerment Framework of Development – concept – definitions – dimensions. Sustainable development, Gender and Development.

Module IV

Indian Context

A brief history of development communication in India – KHEDA, SITE etc.Development communication policy in India – action plan – democratic decentralisation, Panchayati Raj, Rural development initiatives.

Development support communication: case studies in agriculture, health, education, family planning, science popularization.

MCJ 2C 05
GLOBAL COMMUNICATION
(Core Course: 3 Credits)

Learning Objectives
- To introduce key concepts, models and historical background of international/global communication.
- To present the impact of globalisation on the communication practices across national borders.
- To give an overview of global giants in mass media industry at global level and their impact on local media cultures and social life.
- To present the key global aspects Indian media and entertainment industry

Learning Outcomes
After the completion of the course the learners shall be able to
- Understand key concepts and areas of the discipline global communication to engage in the discourses related to global communication.
- Recognise the critical themes and issues in globalised communication practices and their impact on the society at large.
- Critically evaluate the functioning of media conglomerates in the world and its impact on regional media practices and consumption
- Analyse the functioning of Indian media in a globalized environment

Module I
Global Communication

Definition and key concepts of global communication, Historical account of global communication, communication and empire, the era of international news agencies.

Models of International Communication: Mowlana's model of International Flow of Information, Mowlana's central-periphery model of news flow, Mowlana's North South Round Flow model of news, Sepstrups' model of transnational television flows. Call for new communication order, NWICO, McBride Report.

Module II
Globalisation and Media

Origins of globalization, Global media structure, Multinational media ownership and control- International media dependency, Cultural imperialism, Media trans-nationalization process.

Telecommunication policies.

Module III
Global Giants in Communication

Global media corporations: Walt Disney, National Amusements, Time Warner, Comcast, News Corporation, Sony etc.

Internet corporations: Apple, Microsoft, Google, Amazon, Facebook etc.

Global rating and advertising corporations: Nielsen Holdings, Interpublic Group etc.

Module IV
Regional Focus: Indian Media in Global Perspective

Contemporary trends in Indian media– Globalization and Market dominance, consolidation, monopoly and corporatization, vertical and horizontal integration and key concerns, Indian media giants: Reliance, TOI, India Today etc., and their global presence.

FDI in Indian media, Global interest in Indian entertainment industry.Global presence of Indian film.Hollywood in India, Media and Indian Diaspora media with special reference to Malayalam media in Gulf.

MCJ 2L 01
PHOTOGRAPHY & VIDEOGRAPHY
(Core Course- Practical: 2 Credits)

Learning Objectives
- To introduce the basics of photography and videography and the fundamental functions of related equipments.
- To train students in lighting, composition and aesthetics of photography and videography
- To impart training on photography and videography for news reporting.

Learning Outcomes

Through readings, instruction, practice, and projects, students shall:
- Develop or improve skills in contemporary videography and photography technology and operation of cameras and production equipment.
- Achieve critical appreciation skills for the aesthetics of sound and image production.
- Improve literacy in the visual language and achieve skills in digital media production.
- Gain a greater understanding of storytelling in narrative and non-narrative visual productions.

Pedagogical Method

The training methods should be appropriate to the development of competencies. The focus of the programme is on "performing" and not on "knowing". Lecturing will be minimum and emphasis shall be on "hands on training". Continuous individual monitoring and evaluation are essential.

Module I

Introduction to Camera

Acquaintance with Camera Controls, camera parts and types, menu items and shooting modes (Auto vs. Scene vs. Priority), Focusing techniques, Stability during captures, Storage and media management.

Assignment

Photograph a subject of interest using different shooting modes.

Module II

Lighting and Composition

Discussions and demonstration on composition techniques.

Photographing Portraits and Still life.

Practicing portrait genres and lighting techniques (Naturalism and Pictorialism), Review aperture, shutter speed, ISO.

At the end of the 1 and 2 modules, the learner should be able to shoot in manual controls to manipulate the exposure creatively.

Assignment

Student should plan, shoot and submit high- and low-key light images of still life and portraits.

Module III

Studio session- Basic editing and cropping

At the end of the module, the learner should be able to do the basic editing of images using industry standard proprietary/open software.

Module IV

Low light photography

Demonstration of low light shooting .

Landscape and nature photography practices.

30

At the end of the module, the learner should be able to plan and shoot landscape and natural images that require the least amount of post-production work.

Assignment

Student should plan, shoot and submit images of landscape and nature photography.

Module V

Photographing News/Documentary

At the end of the module, the learner should be able to capture photographs of reportage and documentary using a DSLR.

Assignments

Student should plan, shoot and submit images of news photos, photo-series, and everyday life documentary.

Module VI

Digital Video Camera Basics and Shooting Techniques

Demonstration of Camera Controls, Camera parts and types, Menu items and shooting modes, Storage and media management, Focusing Techniques, shot composition and movements, Stability during capture, Shot decisions, Anticipating Editing, Shooting People and Objects, Lighting setups.

Module VII

Audio for Video, Lighting for Video, Lighting Instruments

Demonstration- Audio Capture Settings

At the end of the 6 & 7 modules, the learner should be able in, composing shots following the rules, proper use of a level and steady tri-pod, setting proper color balance, focus, exposure and good audio using an ENG/EFP camcorder in manual mode.

Assignments

Shooting people in various environments.

Shooting an interview

SUGGESTED READINGS

MCJ 2A 01
AUDIO-VISUAL EDITING
(Professional Competency Course-PCC: 2 Credits-*Credits are not counted*)

Learning Objectives

To train the students in post production editing of audio and video with a professional approach.

Learning Outcomes

At the end of the course, the learner should be able to do digital video editing using professional proprietary/open software(s).

Module I

Understanding Audio Post-Production

Audio Editing-Audio recording and editing in DAW, Audio file formats, editing phases- Dialogue, Foley, Effects, Music, Pre-Mix-Dialogue Premix, Effects Premix, Ambience Pre mix, Foley Premix, Music Premix, Final Mix-DAW-Project file setup, Various Mixing Formats.

Module II

Audio Editing

Importing and editing sound, multi-layered audio tracks and mixing, labeling and managing recorded material adding effects, balancing stereo sound, exporting between file formats.

At the end of the two modules, the learner should be able to do digital audio editing using professional proprietary/open software.

Module III

Understanding Video Post-Production

Digital video editing workflow, Introduction to terminologies used to describe stages of video sequence development- Dailies, Assembly, Rough cut, Picture lock, Director's cut, Final cut, Understanding the footage, File formats.

Module IV

Video Editing

Getting started with video editing, Video capture, Viewing the raw footage, Trimming the clips forthe best parts, Sequence on timeline, Applying transitions, Adding titles and credits, Music, Sound effects, Creating supers, Special effects, Exporting video to different mediums and formats, file types.

SUGGESTED READINGS

1. Grammar of the Edit, 4th Edition by Roy Thompson, Christopher J. Bowen, Focal Press
2. Film and Video Editing Theory-How Editing Creates Meaning, 1st Edition by Michael Frierson, Routledge
3. Sound recording practice:Borwick John
4. Sound Studio: Ford Tyree S.
5. Sound FX : Alexander U. Case

MCJ 3C 01
COMMUNICATION RESEARCH
(Core Course: 4 Credits)

Learning Objectives
- To make the learners acquainted with the process and procedures of research in mass communication
- To offer theoretical and practical knowledge in literature review and scholarly communication
- To impart practical training in conducting survey, data collection, data analysis and research writing

Learning Outcomes

At the completion of the course, the learners shall be able to:
- Recognise the key concepts and methods in communication research
- Design research work scientifically using various methodological frameworks
- Apply theories and theoretical framework in their research work
- Analyse data and arrive at conclusions independently and scientifically report research findings in the form of research articles and theses

Module I

Research Process

> Nature and scope of communication research; development of mass media research, aspects of research, characteristics of research; evaluation of communication research in India. Research in print media, electronic media, advertising and public relations and internet.

Module II

Research Procedures

> Topic selection - Relevance of the topic, literature review, setting hypothesis and research questions/objectives, analysis and interpretation, summary

Module III

Research Approaches

> Qualitative research method – field observations, focus groups, interviews, case studies; Content analysis – Definitions, steps in content analysis, reliability and validity. Quantitative method – Definitions and components. Survey research – Descriptive and analytical surveys. Sampling methods; procedures. Mixed method.

Module IV

Data analysis and Interpretation

> Introduction to Statistics – Basic statistical procedure; techniques for communication research – Measures of central tendencies, frequency distribution, tests of significance – *t*-test, Chi-square, ANOVA, MANOVA, reliability, validity and correlations and regression. Introduction to quantitative and qualitative data analysis software.

Module V

Research Writing

> Writing with style, avoiding common writing errors, readability of the manuscript, writing a research report, concluding the research report, and writing exercises. Indexing, abstracting, citation styles: APA, MLA etc.

Module VI
Issues and Trends in Research Domain

International Journals in Communication, Ethical perspective of Communication Research – Plagiarism, IPR issues. Using the Web for academic research and publication, academic databases and search engines.

MCJ 3C 02
PUBLIC RELATIONS & CORPORATE COMMUNICATION
(Core Course: 4 Credits)

Learning Objectives
- To understand the role and scope of PR in management, its various tools and the emerging importance of the discipline in varying areas.
- To know the evolution of Corporate Communication and its expanded role in organizational and marketing communication

Learning Outcomes

After the completion of the course, the learners shall be able to
- Explain the role of the public relations in the corporate environment and describe the strategies, tactics, and techniques of public relations and corporate communications

Module I

Public Relations

Public Relations   concept and definition : - Evolution and growth of public relations, Propaganda, Publicity, Public opinion , Lobbying -Functions of public relations - Characteristics and qualifications of PR personnel

Module II

PR tools & methods

Public relations writing - Increasing importance of PR, target audience and publics of PR - PR campaign stages and planning -Organisation setup of PR departments/ agencies; PR in public / private sectors, Central and State PR departments

Module III

Principles of PR

Laws and ethics in PR, PR organizations ,PRSI code, - PRSI, IPRA- PR as a management function, PR and crisis management, Functions of PR agency, PR counselling and Consultancy-Corporate Social Responsibility ,PR and social auditing.

Module IV

Communication in Organizations

Types - internal and external, downward, upward, horizontal and diagonal communication. Principles of effective communication, corporate communication- definition, historical perspective, contemporary relevance. Facets of corporate communication-organizational communication, marketing communication, management communication.

Module V

Corporate Communication

Functions of corporate communication - Employee Relations (ER) Investor Relations (IR), Media Relations (MR), Government Relations (GR), Costumer Relations (CR) and Public Relations (PR). Audiences, objectives, functions, principles and tools of communication in. ER, IR, MR, GR, CR and PR.

Module VI

Corporate Reputation

Concept of corporate personality, components of corporate personality, stakeholder perception. Role of communication in building corporate reputation, corporate identity corporate image and corporate brands. Building a distinct corporate identity: concepts, variables and process making of house styles (logo, lettering and process)-Corporate

communication management-strategic corporate communication and issue management, measuring the effectiveness of corporate communication.

MCJ 3C 03
ONLINE JOURNALISM
(Core Course: 4 Credits)

Learning Objectives
- To introduce the basics of the internet technology and its application for mass communication
- To train the learners in basic web designing
- To introduce the process and methods of online news reporting and content development

Learning Outcomes

At the end of the course the learners shall be able to
- Recognise internet related concepts and application of the same in mass communication environment
- Develop content for the web and manage it using content management systems
- Identify the trends in online journalism and critically evaluate the form and content of online media platforms

Module I

Online Journalism- Basics

Online Journalism– definition, origin, development, and contemporary relevance; differences from traditional journalistic practices-Interactivity, sociability, multimedia content, autonomy, playfulness, privacy, personalization, digitization and convergence. Audiences of online Journalism. Socio cultural aspects of online journalism.

Module II

New Media Technology

Introduction to World Wide Web, Origin and development of the Web. LAN, MAN, WAN, E-mail, Web, ownership and administration of Internet, types of Internet connection, internet protocols, Introduction to HTTP, HTML, XML, Java script, jQuery, PHP, Content Management System, Apache, Joomla! etc. Browsing and browsers, bookmarks, searching through directory, search engines, Website development and maintenance-Inserting, linking, tagging,, Website promotion, Search Engine Optimization and Web Analytics

Module III

Writing and Editing for the Web

Information architecture, Online reporting- tools for news gathering. Writing for the Web – principles, limitations and new trends. Management and economics of online editions, online advertisements and their types. An overview of online editions of newspapers.

Module IV

Online Journalism- Process

Online audiovisual content – creating, editing and publishing. Ensuring interactivity, APIs and mesh-ups. User generated content and Web 2.0. Polls and Surveys online. Entrepreneurial Journalism Online

Module V

Trends in Online Journalism

News aggregation, online news curation, Social media marketing and social media optimisation. Blogging and micro blogging, Podcast and audio slideshows.

Module VI

Online Journalism: Themes and Issues

Online communication law. Security issues on the Internet- social, political, legal and ethical issues. Citizen journalism on the Web, Social media and journalism, Future of online journalism. Mobile journalism.

CORE TEXTS

1. Bradshaw, P. (2013). The Online Journalism Handbook. doi:10.4324/9781315834184
2. Hill, S., & Lashmar, P. (2014). *Online journalism: The essential guide*. Los Angeles, Calif: Sage Publications.

SUGGESTED READINGS

MCJ 3C 04
MEDIA MANAGEMENT AND ENTREPRENEURSHIP
(Core Course: 4 Credits)

Learning Objectives
- Provide students with detailed insight into the structures, management, processes, economics of the media industries
- Provide a firm foundation for understanding how the media industries operate.

Learning Outcomes

After the completion of the course, the learners shall be able to
- Understand the organizational and economic structures and strategies used in media industries and to identify the legal, ethical and other regulatory challenges facing the electronic media.

Module I

Principles of Management

Process and Approaches, Management Skills, Understanding Markets and Audiences, Functions and Characteristics of Media Products, Economics of Media Products, Media in a Free Market Economy, Ownership of media, News management- Issues.

Module II

Overview of Media Organizations

Structure and pattern of Ownership, with special reference to media ownership. Principles of Media Management: Principles and Challenges. The Indian Media Business: An overview.

Module III

Newspaper Organization & Management

Organization of a Newspaper, Publication, Registration, Newspaper Production, Newspaper and Community, Research, Newspaper Management in India, Press Council of India, Managerial Function in a Newspaper Organization, Editorial Management, Advertising Management, Circulation, Personnel and Financial Management, Accounting, Printing, Competition.

Module IV

Electronic & Digital Media Management

International Perspective: The Global TV Marketplace, Structure of CATV Systems, Television Management in India, Planning and execution of programme production – production terms, control practices and procedures. Administration and programme management in media Budget Development, The Design Process – scheduling, Production Tracking Form, transmitting, Record keeping, quality control and cost effective techniques. Employee/employer and customer relations services; marketing strategies– brand promotion (space/time, circulation) – reach – promotion – market survey techniques – human research development for media. Managing a radio station, Audience research, Community Radio: Organization and Management.

Module V

Digital Media Entrepreneurship

Media start ups, Media Innovation: Elements and Principles. Sustainability of start ups, Business plan for media entrepreneurship- revenue streams, Case studies of successful media start ups at global, national and local levels.

CORE TEXTS
1. Kohli-Khandekar, V. (2013). *The Indian media business*. Delhi: SAGE Response.

2. Williams, H. L., & Rucker, F. W. (1978). *Newspaper organization and management*. Ames: Iowa State University Press.

MCJ 3E 01
DOCUMENTARY FILM PRODUCTION
(Elective Course: 4 Credits)

Learning Objectives
- To provide insight into the historical evolution of and contemporary trends in documentary filmmaking.
- To offer theoretical knowledge and practical training in documentary filmmaking.
- To equip the students to approach documentary films critically

Learning Outcomes
At the completion of the course, the learners shall be able to
- Understand the trajectories in the development of documentary films as a communication form
- Recognise concepts, terms, categories and key elements in documentary filmmaking.
- Understand the process of documentary filmmaking from ideation to final production
- Able to critically analyze documentary films

Module I
Key Concepts

History of documentary filmmaking, Origins of Documentary, Genre and Periodization, Flaherty – Grierson – Vertov,

Basic Concepts and Values, Functions of documentary as a medium – differences with fictional films – types of documentaries –narrative, expository, portrait, story, news, etc. Documentary filmmaking in India

Assignments: Screening and review of select Indian and foreign documentary films

Module II
Scripting

Ideation, Planning, Budgeting, Proposal Preparation and Researching for documentary filmmaking. Principles of using visual language, sound, music and other elements in documentaries. Scripting documentaries- elements, script format, and script language.

Module III
Practical Assignments based on the Module II

Phase I   : Ideation, discussion and submission of the proposal of the film to be made by the student

Phase II   : Revision and finalisation of the proposal

Phase III : Scripting the documentary film

Module IV
Production

Documentary production Strategies, Construction of Meaning in Documentaries

Practical Assignment

*Phase IV***:** Production - Shooting

Module V
Production

The Postproduction Process: Principles of documentary editing

An overview of post production process including distribution chains, outreach channels and other promotional methods. Documentary film festivals and national and international levels.

Practical Assignment

Phase V: Editing and submission of the work along with a log-line and at least two publicity stills

CORE TEXTS

MCJ 3E 02
TECHNICAL WRITING & DOCUMENTATION
(Elective Course: 4 Credits)

Learning Objectives
- To develop technical writing skills necessary to communicate information gained through a process of technical or experimental work.
- To impart knowledge on professional environment of technical documentation
- To familiarize with writing different technical reports and other documents
- To address several language, structure, style, and content issues encountered while developing technical documents

Learning Outcomes
After the completion of the course, the learners shall be able to
- Understand the basic components of definitions, descriptions, process explanations, and other common forms of technical writing
- Practice the unique qualities of professional writing style and know how to follow the stages of the writing process (prewriting/writing/rewriting) and apply them to technical and workplace writing tasks.
- Will be familiar with basic technical writing concepts and terms, such as audience analysis, jargon, format, visuals, and presentation**.**

Module I
Basics of Technical Writing

Definition/s, Differences between technical writing and other forms of writing.Qualities and qualifications of technical writers; End products of technical writing – technical reports, Project proposals, project abstracts, project documents and manuals - technical, installation and end-user.

Module II
Technical Documentation Life Cycle

Stages in Documentation Life Cycle, Professionals involved, Project manager/editor, Writers, Graphic artists; Liaison with project engineers/scientists and clients.

Module III
Roles and Responsibilities

Roles and responsibilities of writers, editors / project managers. Document formats - hard and soft copy versions designs

Module IV
Principles of Technical Writing

Styles in technical writing; Clarity, precision, coherence and logical sequence in writing: The writing process - aim of writing, knowing the writing assignment, its clients and end users; Gathering of facts/data; Planning the document content and organization; Writing the draft; draft revision; use of graphics/illustrations.

Module V
Technical Editing Process

The technical editing process - Review of the document aim, content and its organization; Editing for accuracy of technical details, language style and usage; Editing tables, graphs/ illustrations; copy fitting, design an layout of documents. Instructional design, Online-editing process. Citation styles, indexing and abstracting.

Module VI

Technical Documentation in Practice

Introduction to authoring tools. Document Production Practical

CORE TEXT

1. Gerson Sharon J. and Gerson Steven M. Technical Communication: Process and Product. Pearson Education

MCJ 4P 01
DISSERTATION & VIVA
(Core Course: 8 Credits)

Learning Objectives
- To equip learners to do independent research study in the various domains of mass communication and journalism
- To train them to develop research reports and articles and other scholarly communication materials
- To inculcate a critical mind among the learners to approach the themes and issues in communication based on theoretical framework and produce new knowledge in the field.

Learning Outcomes

After the completion of the course, the learners shall be able to
- Do research in the field of mass communication and journalism

- Collect quantitative and qualitative data and analyse them critically to contribute innovative output to the domain on knowledge
- Report research output in the form of theses and articles and present them and defend the findings and arguments in academic fashion

Pedagogical Method

Each student shall be supervised by the teachers. Department Council/ equivalent body shall prepare a schedule for the research study to ensure timely completion of the same. All measures shall be taken to ensure ethicality of the research. The research report or output shall be free from plagiarism.

Evaluation

The valuation of dissertation shall be jointly done by the supervisor of the project in the department and an External Expert from the approved panel, based on a well-defined scheme of valuation framed by them. They can follow the scheme of valuation suggested in the CCSS-PG Regulations 2019 or frame an alternative one.

MCJ 4C 01
FILM STUDIES
(Elective Course: 4 Credits)

Learning Objectives
- To introduce and explore basic concepts in film analysis and interpretation and articulate the historical, cultural, and material contexts that underpins concepts such as genre, auteur, spectator, and audience.
- Explain the wider historical, cultural and material processes that involved in filmmaking from time to time
- Present current theories of cinema as text, image and mediated process
- Offer an overview of the stylistic traits peculiar to different movements and traditions of film in a comparative context

Learning Outcomes

At the completion of the course, the learners shall be able to
- Relate film analysis and interpretation to wider historical, cultural and material processes
- Articulate and critically engage with current theories of cinema as text, image and mediated process
- Discern and discuss stylistic traits peculiar to different movements and traditions of film in a comparative context;

Module I

Introduction to Film Studies

How to watch movies? Film theories and Criticism-(Auteur Theory, Feminist Theory, Apparatus theory, Formalist theory, Marxist theory, psycho analytical theory, Queer Theory); Perception – Representation – Signification –mise-en-scene , Pro filmic elements of mise-en-scene, Settings, Cinematography, Colour and its meanings, Visual semiotics.

Module II

Beyond the shots

Narrative structure, Film Culture, Ideology and language; Popular cinema, Parallel cinema; Theoretical dimensions of film editing, continuity editing and montage types.

Module III

Hearing film

Sound theory, analysing the sound track, diegetic and non-diegetic elements and silence, sound and fury, terminologies of sound analysis.

Module IV

Film movements

Silent Era, Italian Neo realism,(Focus Film-Bicycle Thieves), Surrealism(Focus Film: Un ChienAndalou), Soviet Montage (Focus Film: Battleship Potemkin) German Expressionism(Focus Film-Nosferatu), French New Wave (Focus Film-Breathless), Japanese Cinema (Focus Film-Rashomon),Latin American Cinema, Iranian Cinema etc.

Module V

Film Genres

Analysing Genres, Feminist Films, Avant Garde cinema, Cinema verite, Documentaries-origin, evolution and types.

Module VI

Indian Cinema

Beginnings, growth, Milestones, Music and choreography – Film Industry and its division – Cinematic Society –imagination, reality, ethnography- cinema and cultural studies-– Sociology of audiences and its sub-culture. Film review and criticism.

MCJ 4E 01
DATA JOURNALISM
(Elective Course: 4 Credits)

Learning Objectives
- To understand the concept of data journalism and acquire the basic skills in finding and cleaning data sets.
- To comprehend the basic concepts of data visualisation web tools and to master the use of data in journalistic storytelling
- To introduce the collection, analysis, and presentation of data in newsrooms for the purpose of engaging and informing the public

Learning Outcomes
After the completion of the course, the learners shall be able to
- Explore key data journalism concepts and skills and gain insight into how data journalism is practiced in newsrooms.
- Analyse and evaluate the major ethical and theoretical issues affecting the delivery of data driven journalism.
- Critically discuss ways in which emerging technologies can be incorporated into your future journalism practice.
- Know the techniques for sorting, filtering, cleaning and publishing data.

Module I
Introduction

Definition, Data journalism in Perspective-Computer Assisted Reporting, Precision Journalism, Info-graphics, Mass Data Literacy, Pros and cons of Data journalism. Data-driven journalism case studies: global: ABC, BBC and Guardian, India: India Spend, Factly, India Lives etc. Data journalism business models.

Module II
From Data to Stories

How Data is Used for Public Interest Stories, How to Find a Story in Data, Sector-Specific Data Stories; Common Data Formats, Finding Data Online, Alternative Data Sources, Planning a Data Story: Hypothesis and Questions, Enriching Stories With Data, Analyzing Fact Sheets

Lab: Scraping and Cleaning (Practical)

Data Mining, Scraping PDFs, Scraping websites, Cleaning Data

Module III
Understanding Data

Organising Data, Verifying Data, Summarising and Simplifying Data Insights
Essential Statistics, Evaluating Data Interpretation, Data Privacy

Lab: Data Analysis

Basic calculations, Summary Statistics, Percentage change, Working with large datasets, Pivot Tables, Advanced merging and formulas

Module IV
Data Visualisation

Purpose of Data Visualisation, Matching Data and Graph Types, Design and Color Basics, Map Theory, Ethics of Data Visualisation, Visual Storytelling

Lab: Data Visualisation

Tables, Charts and Graphs, Maps

Module V
Producing Data-Driven Stories

Anatomy of a Data Story, Reaching your Audience, Data-Driven Leads, Data-Driven Writing, Solution Journalism

Lab: Story production

MCJ 4E 02
PHOTOJOURNALISM
(Elective Course: 4 Credits)

Learning Objectives
- To introduce students the concept of photo-journalism, use various types of cameras and understand the ethical skills of photo-journalism while embracing new technologies
- To help students to acquire and develop the intellectual, technical and analytical skills of visual journalism communication
- Learn about the history of photojournalism and the impact photographs have in society.
- understand the task of a photojournalist and how it applies to for any publication, not just newspapers

Learning Outcomes

After the completion of the course, the learners shall be able to
- Understand and explain key concepts of photography theory and explain how photographs communicate visually in a story.
- Learn to analyze and critique photographs and gain a better understanding of camera techniques
- Visually tell a news story.

Module I
Introduction to Photojournalism

Origin and development of photography, Types of photographs-News photographs, advertisements photographs, wild life photographs, sports photographs. Review of Photo journals and magazines in India. Leading photographers and photojournalists in India. International news photographers.

Module II
Photography and Journalism

Scope and significance of photo journalism. Photojournalism: Origin and Development, Photographer- News photographer- photojournalist. News photographs and other photographs. photo feature, photo essay, Photo stories – Getting the exclusive/special photo, celebrity coverage, details to add to photo captions, photographing sensitive issues (communal issues, crime involving minors) ,Ethics of news photography,.

Module III
Camera & Tools of Photography

Human eye and Camera eye, Classification of cameras and their relative comparison, Mechanism of aperture, shutter, camera body view finder, lenses (fixed focal length versus zoom lenses, common lens filters), Camera operation, exposure light tables, colour and light basic principles of colour sensitivity, colour temperature, colour reversal film, colour negative film, Light techniques- outdoor, night, indoor lighting, indoor portraiture.

Module IV
Basic techniques of Photography

Loading and shooting, Composition, exposure, light sensitivity, depth of field, Portraiture – landscapes, product, Effect of aperture, Effect of shutter speed, Using flash light, Use of camera accessories, Care and maintenance of camera equipment.

Module V

Digital Photography

Techniques in digital photography, Photo appreciation, Appeal, effect and persuasion through good photograph, Photo manipulation through software. Selection, cropping, scaling and toning pictures. Printing with actual resolution.

Module VI

Case Studies in Photography

Studying the works and processes of eminent photographers and photojournalists:

Alfred Stieglitz, Edward Jean Steichen, August Sander, Jacques-Henri Lartigue, Edward Weston, Paul Strand, Weegee, Walker Evans, Henri Cartier-Bresson, Brassai, Robert Frank, Robert Capa, W. Eugene Smith, Lewis W. Hine, Dorothea Lange, Margaret Bourke-White, Alfred Eisenstaedt, Joel Meyerowitz, David Douglas Duncan, Eddie Adams, Don McCullin, Sebastiao Salgado, James Nachtwey, Steve McCurry, Marc Riboud, Larry Burrows, Mary Ellen Mark, Josef Koudelka, Raymond Depardon, Elliot Erwitt.
